## (54) SAFETY CONTAINER, AND ITS UNLOCKING DEVICE

## (57)Abstract:

PURPOSE: To easily lock a locking cover to a box by covering and pressing the locking cover against an opening of the box so that a plurality of locking projections of the locking cover are coupled with engaging slots on a lip in a safety container to protect an article such as a video game from the robbery.

CONSTITUTION: A safety container used when a video game is displayed for sale comprises a box 10 and a locking cover 50, the box 10 has a large number of slots 34 in a side wall close to its opening, and the locking cover 50 is provided with a projection 58 to be engaged with the slots 34 in the box 10. When the locking cover 50 is covered on and pressed against the box 10, the tip of the projection 58 is engaged with the slots 34 to be locked. When the locked locking cover 50 is detached from the box 10, an unlocking device including a clamping member is used in which a large number of keys are inserted in key holes 56 provided in the locking cover 50, and the tip of the projection 58 is moved to disengage the engaged condition of the projection 58 with the slot 34.
